# Non Tech

| Dimension | Question | Answer |
|---|---|---|
| AI Heroes Universe | What technology uses machine learning to create brand-new text, images, or music from scratch? | Generative AI |
| AI Heroes Universe | What famous AI chatbot writes emails, summaries, and answers questions like a human? | ChatGPT |
| AI Heroes Universe | What do you call the specific text instructions you type to guide an AI? | Prompt |
| AI Heroes Universe | What AI technology creates highly realistic but completely fake videos of real people? | Deepfake |
| AI Heroes Universe | What computer program talks to you via text on a customer service website? | Chatbot |
| AI Heroes Universe | What technology allows computers to learn from examples without being explicitly programmed? | Machine Learning |
| AI Heroes Universe | What step-by-step set of instructions tells a computer exactly how to solve a problem? | Algorithm |
| AI Heroes Universe | What AI tool creates stunning digital artwork just by reading your text description? | Image Generator |
| AI Heroes Universe | What AI software perfectly mimics a person's speech after hearing a short audio clip? | Voice Cloning |
| AI Heroes Universe | What famous test checks if a computer can converse exactly like a human being? | Turing Test |
| AI Heroes Universe | What AI system is designed to process information similarly to the human brain? | Neural Network |

| | | |
|---|---|---|
| AI Heroes Universe | What digital AI assistant operates alongside you to help draft documents and emails? | Copilot |
| AI Heroes Universe | What term describes when an AI confidently makes up fake facts or wrong answers? | Hallucination |
| AI Heroes Universe | What process involves feeding thousands of examples into an AI so it can learn? | Data Training |
| AI Heroes Universe | What smart software acts as your personal digital helper to schedule daily tasks? | AI Assistant |
| AI Heroes Universe | What technology makes machines do repetitive human jobs automatically without any human help? | Automation |
| AI Heroes Universe | What mechanical machine is built to perform physical tasks automatically or by remote control? | Robot |
| AI Heroes Universe | What unmanned flying vehicle is controlled by a remote to take aerial photographs? | Drone |
| AI Heroes Universe | What computer system helps airplanes or modern cars steer themselves safely? | Autopilot |
| AI Heroes Universe | What term describes a modern manufacturing plant run entirely by connected robotic machines? | Smart Factory |
| AI Heroes Universe | What software technology uses digital bots to automate repetitive clicking and typing tasks? | RPA |
| AI Heroes Universe | What hardware device detects changes in the environment, like motion or temperature? | Sensor |
| AI Heroes Universe | What wearable robotic suit gives humans extra strength to lift heavy objects safely? | Exoskeleton |
| AI Heroes Universe | What modern car uses cameras and sensors to drive without a human holding the wheel? | Autonomous Vehicle |

| | | |
|---|---|---|
| AI Heroes Universe | What robotic machine automatically moves heavy boxes and sorts inventory in large facilities? | Warehouse Bot |
| AI Heroes Universe | What laser technology helps self-driving cars 'see' objects and measure distances accurately? | Lidar |
| AI Heroes Universe | What manufacturing process uses sequential robotic arms to build products much faster? | Assembly Line |
| AI Heroes Universe | What physical component acts like a muscle to make a robot's arm move? | Actuator |
| AI Heroes Universe | What technology gives robots the ability to 'see' and inspect products using cameras? | Machine Vision |
| AI Heroes Universe | What household machine, like a robotic vacuum, cleans floors automatically while you sleep? | Smart Appliance |
| Programming Powers | What general practice protects computers, networks, and private data from digital attacks? | Cybersecurity |
| Programming Powers | What secret word or phrase do you type to log into your digital accounts? | Password |
| Programming Powers | What scam uses fake emails to trick you into giving away your passwords? | Phishing |
| Programming Powers | What person tries to break into computer systems to steal private digital information? | Hacker |
| Programming Powers | What broad term describes any dangerous software designed to harm your computer system? | Malware |
| Programming Powers | What digital security barrier blocks unauthorized people from accessing a private computer network? | Firewall |

| | | |
|---|---|---|
| Programming Powers | What technology scrambles your digital messages so hackers cannot read them in transit? | Encryption |
| Programming Powers | What security software hides your internet activity and location when using public Wi-Fi? | VPN |
| Programming Powers | What security method requires a password plus a temporary phone code to log in? | Two-Factor Authentication |
| Programming Powers | What harmful software spreads by copying itself and slowing down your computer? | Virus |
| Programming Powers | What dangerous software locks your computer files and demands money to unlock them? | Ransomware |
| Programming Powers | What event occurs when hackers successfully steal thousands of private customer records? | Data Breach |
| Programming Powers | What security method uses your physical fingerprint or eye scan to identify you? | Biometrics |
| Programming Powers | What software download improves system security and fixes vulnerabilities on your phone? | Update |
| Programming Powers | What email tool automatically moves dangerous or junk messages out of your main inbox? | Spam Filter |
| Programming Powers | What term describes the screens, buttons, and menus you click to use software? | User Interface |
| Programming Powers | What term describes how easy and enjoyable it feels to use a specific app? | User Experience |
| Programming Powers | What display allows you to control a device simply by tapping it with your finger? | Touchscreen |
| Programming Powers | What feature lets you control a device by speaking to it out loud? | Voice Command |
| Programming Powers | What design practice ensures software can be easily used by people with disabilities? | Accessibility |

| | | |
|---|---|---|
| Programming Powers | What design feature helps you find your way around different pages of a website? | Navigation |
| Programming Powers | What physical action do you perform with a computer mouse to select an item? | Click |
| Programming Powers | What technology lets you swipe the air with your hand to control a screen? | Gesture Control |
| Programming Powers | What feature makes your smartphone vibrate slightly when you type on the screen? | Haptic Feedback |
| Programming Powers | What voice-activated helper answers your questions, like Siri or Alexa? | Virtual Assistant |
| Programming Powers | What small digital picture represents an app or file on your computer screen? | Icon |
| Programming Powers | What drop-down list gives you a choice of commands to select in an application? | Menu |
| Programming Powers | What action do you take to move text up or down on a computer screen? | Scroll |
| Programming Powers | What small home screen app shows quick information, like today's weather forecast? | Widget |
| Programming Powers | What design science ensures keyboards and mice are comfortable for humans to use? | Ergonomics |
| Cloud Universe | What digital network stores your files remotely so you can access them anywhere? | The Cloud |
| Cloud Universe | What service lets you save documents on the internet instead of your hard drive? | Cloud Storage |
| Cloud Universe | What massive computer provides data and services to other computers across the internet? | Server |
| Cloud Universe | What giant building is filled with thousands of computer servers storing internet data? | Data Center |

| | | |
|---|---|---|
| Cloud Universe | What process makes a safety copy of your important digital files in the cloud? | Backup |
| Cloud Universe | What automated feature updates your emails across all your connected devices instantly? | Sync |
| Cloud Universe | What action copies a file from the internet onto your personal computer memory? | Download |
| Cloud Universe | What process transfers a document from your laptop up into online cloud storage? | Upload |
| Cloud Universe | What technology lets you watch online videos instantly without saving the file? | Streaming |
| Cloud Universe | What payment model charges you a monthly fee to use cloud software? | Subscription |
| Cloud Universe | What measurement determines how much internet data can pass through your connection? | Bandwidth |
| Cloud Universe | What networking device directs internet traffic safely into your home computer? | Router |
| Cloud Universe | What state is your computer in when it cannot connect to the Wi-Fi network? | Offline |
| Cloud Universe | What business model lets you use apps over the internet without installing them? | Software as a Service |
| Cloud Universe | What cloud feature allows a website to handle millions of sudden visitors without crashing? | Scalability |
| Cloud Universe | What type of power comes from natural sources like the sun and wind? | Renewable Energy |
| Cloud Universe | What technology captures sunlight and converts it directly into usable electricity? | Solar Panel |
| Cloud Universe | What intelligent electrical network uses digital technology to deliver electricity efficiently? | Smart Grid |

| | | |
|---|---|---|
| Cloud Universe | What term describes the total amount of greenhouse gases generated by our actions? | Carbon Footprint |
| Cloud Universe | What practice uses less energy to perform the exact same task? | Energy Efficiency |
| Cloud Universe | What term describes discarded electronic devices like old smartphones and broken laptops? | E-Waste |
| Cloud Universe | What modern car runs entirely on battery power instead of gasoline? | Electric Vehicle |
| Cloud Universe | What internet device automatically adjusts your home heating to save energy? | Smart Thermostat |
| Cloud Universe | What economic model focuses on repairing and recycling products to reduce waste? | Circular Economy |
| Cloud Universe | What practice runs internet websites using servers powered exclusively by renewable energy? | Green Hosting |
| Cloud Universe | What highly efficient lighting technology uses far less electricity than traditional lightbulbs? | LED |
| Cloud Universe | What work practice reduces travel emissions by allowing employees to work from home? | Telecommuting |
| Cloud Universe | What digital device records your electricity usage in real-time to help reduce waste? | Smart Meter |
| Cloud Universe | What term describes materials that can naturally break down into the earth safely? | Biodegradable |
| Cloud Universe | What overall practice focuses on meeting our current needs without harming future generations? | Sustainability |
| Analytics Dimension | What digital screen shows a quick visual summary of important business numbers and goals? | Dashboard |

| | | |
|---|---|---|
| Analytics Dimension | What grid-based software document organizes numbers in rows and columns? | Spreadsheet |
| Analytics Dimension | What visual drawing uses lines or bars to show how numbers change over time? | Graph |
| Analytics Dimension | What circular visual graph divides a whole circle into colorful percentage slices? | Pie Chart |
| Analytics Dimension | What raw digital numbers and facts do businesses collect, process, and analyze? | Data |
| Analytics Dimension | What general term describes the statistical tracking of how many people visit a website? | Analytics |
| Analytics Dimension | What quantifiable performance metric evaluates a team's progress toward critical goals? | KPI |
| Analytics Dimension | What term describes a general direction in which data or market behavior is moving? | Trend |
| Analytics Dimension | What discipline converts numerical tables into visual diagrams to highlight patterns? | Data Visualization |
| Analytics Dimension | What formatted document presents data analysis and summaries for business managers? | Report |
| Analytics Dimension | What standard of measurement is used to track the success of a specific business activity? | Metric |
| Analytics Dimension | What organized digital filing system securely stores massive amounts of company information? | Database |
| Analytics Dimension | What process searches through massive datasets to discover hidden patterns and useful information? | Data Mining |
| Analytics Dimension | What digital form asks people a series of questions to gather their opinions? | Survey |

| | | |
|---|---|---|
| Analytics Dimension | What mathematical middle number do you get by adding everything and dividing? | Average |
| Analytics Dimension | What process replaces old manual paper tasks with modern digital technology? | Digital Transformation |
| Analytics Dimension | What office strategy aims to eliminate physical documents by storing everything digitally? | Paperless |
| Analytics Dimension | What flexible project management style helps teams adapt quickly to changing business needs? | Agile |
| Analytics Dimension | What term describes the introduction of new ideas or methods to improve business? | Innovation |
| Analytics Dimension | What business model allows companies to sell products directly over the internet? | E-commerce |
| Analytics Dimension | What digital service allows you to consult with your doctor via a video call? | Telehealth |
| Analytics Dimension | What virtual computer model perfectly mirrors a physical object to simulate real-world performance? | Digital Twin |
| Analytics Dimension | What business practice allows employees to do their jobs from outside a traditional office? | Remote Work |
| Analytics Dimension | What term describes the step-by-step sequence of tasks needed to complete a business process? | Workflow |
| Analytics Dimension | What process moves a company's digital assets from local computers to internet servers? | Cloud Migration |
| Analytics Dimension | What small software program do you download to your smartphone to perform specific tasks? | App |
| Analytics Dimension | What process connects different software systems together so they can share data seamlessly? | Integration |

| | | |
|---|---|---|
| Analytics Dimension | What secure electronic mark replaces a handwritten pen signature on legal documents? | Digital Signature |
| Analytics Dimension | What business practice helps employees adapt smoothly when new technologies are introduced? | Change Management |
| Analytics Dimension | What software, like Microsoft Teams, helps remote coworkers communicate and share files easily? | Collaboration Tool |
| Emerging Technology Zone | What technology uses special goggles to put you inside a completely fake 3D world? | Virtual Reality |
| Emerging Technology Zone | What technology overlays digital creatures into the real world through your phone screen? | Augmented Reality |
| Emerging Technology Zone | What wearable gaming device completely blocks your vision to transport you inside a simulation? | VR Headset |
| Emerging Technology Zone | What term describes a massive shared virtual internet where people play and work as avatars? | Metaverse |
| Emerging Technology Zone | What digital cartoon character represents you inside a video game or virtual world? | Avatar |
| Emerging Technology Zone | What feeling occurs when a virtual reality simulation feels completely authentic and believable? | Immersion |
| Emerging Technology Zone | What computer program safely mimics a real-world scenario, like flying an airplane? | Simulation |
| Emerging Technology Zone | What technology blends digital apps seamlessly into your real physical room using a headset? | Spatial Computing |
| Emerging Technology Zone | What technology captures your physical body movements to control a digital character? | Motion Tracking |

| | | |
|---|---|---|
| Emerging Technology Zone | What futuristic 3D light projection makes an image appear to float in mid-air? | Hologram |
| Emerging Technology Zone | What measurement describes how much of the virtual world you can see through a headset? | Field of View |
| Emerging Technology Zone | What process creates the digital shapes and environments used inside virtual reality games? | 3D Modeling |
| Emerging Technology Zone | What technology blends physical and digital worlds so they can interact in real-time? | Mixed Reality |
| Emerging Technology Zone | What digital experience lets you walk through a 3D house model before buying it? | Virtual Tour |
| Emerging Technology Zone | What feeling of nausea occurs when your brain gets confused by virtual reality motion? | Cybersickness |
| Emerging Technology Zone | What technology network connects everyday physical devices to the internet to exchange data? | IoT |
| Emerging Technology Zone | What term describes a house filled with internet-connected lights, locks, and thermostats? | Smart Home |
| Emerging Technology Zone | What smart electronic device, like an Apple Watch, is designed to be worn on the body? | Wearable |
| Emerging Technology Zone | What computer on your wrist tracks your daily steps and receives text messages? | Smartwatch |
| Emerging Technology Zone | What kind of television connects directly to Wi-Fi so you can watch internet streaming apps? | Smart TV |
| Emerging Technology Zone | What modern vehicle accesses the internet to provide live traffic updates and diagnostics? | Connected Car |
| Emerging Technology Zone | What wireless tech lets your phone connect to headphones over short distances without cords? | Bluetooth |

| | | |
|---|---|---|
| Emerging Technology Zone | What invisible wireless network signal lets your devices browse the internet at home? | Wi-Fi |
| Emerging Technology Zone | What voice-controlled internet device plays music and sets alarms in your living room? | Smart Speaker |
| Emerging Technology Zone | What square barcode do you scan with your phone camera to open a website link? | QR Code |
| Emerging Technology Zone | What tiny radio chip is used inside hotel key cards to unlock doors securely? | RFID |
| Emerging Technology Zone | What satellite technology does your phone use to figure out exactly where you are? | GPS |
| Emerging Technology Zone | What is the newest and fastest cellular network connection for modern mobile smartphones? | 5G |
| Emerging Technology Zone | What home security device lets you open your front door using your smartphone? | Smart Lock |
| Emerging Technology Zone | What wearable band monitors your heart rate and sleep patterns for better health? | Activity Tracker |
